Bachelor of Business Administration - B.B.A

Bachelor of Business Administration - International Business - B.B.A (IB)

Bachelor of Business Administration - Computer Application - B.B.A (CA)

## Bachelor of Business Administration (BBA)

### About the Program:

Bachelor's of Business Administration program aims at providing fundamental education in business and management principles. The program allows students to specialize in one of the multiple specialization areas, such as finance, marketing, human resource and accounting.

## BBA at GCC

In today's competitive employment market, it becomes vital to be well qualified in the area of your interest. GCC offers you an opportunity to acquire professional skills in the early stage of the career, as a management professional through additional inputs such as seminars, expert lectures, regular industry visits, internships, business mentoring, career guidance and innovative teaching - learning methods. GCC ensures its teaching mechanism meet the current demands of the Industry - market by empowering students.

## Bachelor of Business Administration- International Business (BBA - IB)

### About the Program:

Studying international business allows students to appreciate how globalisation has brought about an increasing 'connectedness' of businesses, markets, people and information across countries.'

## BBA IB at GCC

GCC always inspires you to apply your skills in an international setting by giving broad exposure to different ideas, approaches and ways of thinking across the field. With expert faculty members at the fore, regular sessions are organised. Students are exposed to the current practices of the International business world. Additionally, foreign languages offered are of high use to the students in the competitive world.

## Bachelor of Business Administration- Computer Applications (BBA-CA)

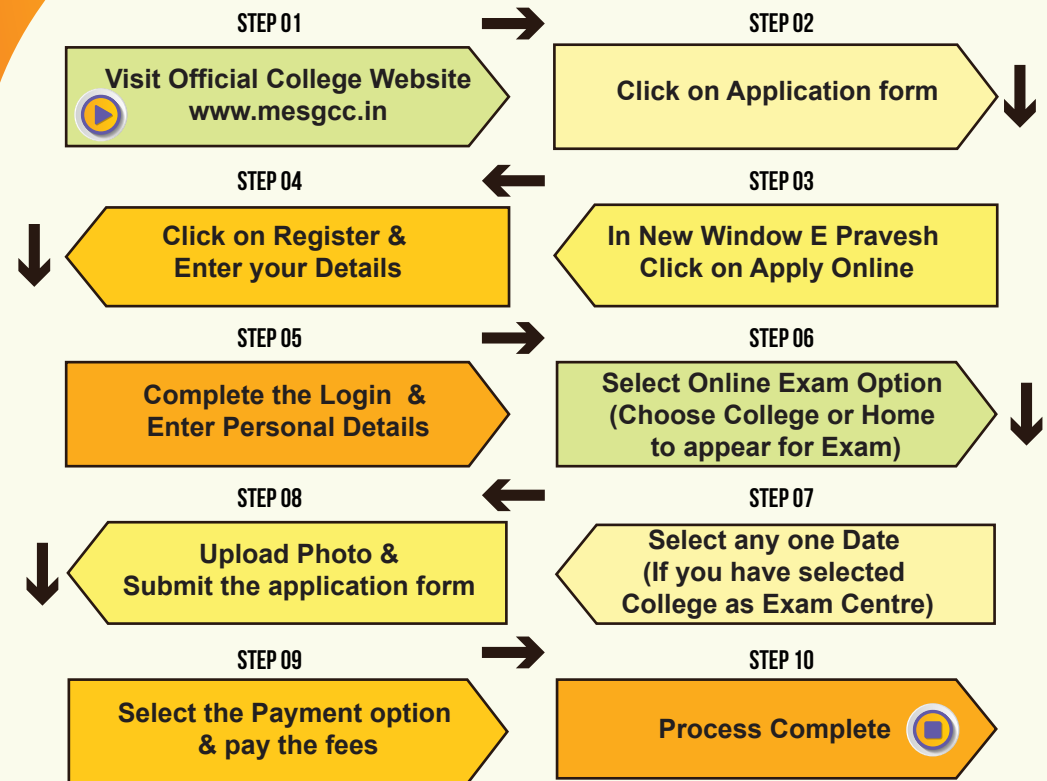

### About the Program:

Students are taught subjects which are related to the technological applications that are required in today's work field. In this age of Computers and digitalisation knowledge about machines is the key. It helps the students to have an advantage in the field of Information Technology.

## BBA CA at GCC

The world of computing and communications is changing and growing at a rapid pace and we at GCC make you ready with an emphasis on contemporary computing technology and strategic management. By arranging Industry linked projects, practical based teaching methods, tie-ups with reputed institutes providing certified programs, the students get complemented with core management and computing skills.
